

## M. U. MEN ARE READY FOR THEIR VACATION

Most of the University Professors Going to Cooler Climates in East.

### ONE TO BE A SOLDIER

W. J. Shepard Will Leave for Training Camp at Plattsburg.

Now that the Summer Session at the University is nearing an end, the University professors and their wives and families are beginning to abandon the cares of school life and turn their thoughts to vacation trips. "We're going to spend next month on the Great Lakes," "We'll probably go west and live in the mountains for a month" or "We are going East" were the common expressions from the University folk when they were asked about where they would spend their time until the University opened in September. The main idea voiced by them all, however, was: "We want to go to some locality that is cooler than Columbia."

One University teacher, however, is not so anxious about spending August in such style; he will utilize the hot weather month of the year in self-preparedness. This man is Prof. W. J. Shepard of the political science department. As soon as the Summer Session is closed he will make haste to the Plattsburg training camp, Plattsburg, N. Y., where he will do "squad right," "about face," "present arms" and other military maneuvers that will train him for actual military service. Prominent business and professional men throughout the United States have been at Plattsburg receiving military training since the camp was formed more than a year ago in keeping with the big preparedness movement that has swept the entire United States.

Dean J. C. Jones and family and guest, Prof. E. D. Phillips of Kansas City, have just returned from Dean Jones' cottage, "Riverview Lodge," on his farm near McBaine. Dean Jones and daughter, Miss Catherine, and Miss Edith Miller have left for a month's visit to places in Colorado.

As soon as the Summer Session is closed Prof. and Mrs. F. F. Stephens will leave for Chicago. From there they will visit during August on the Great Lakes.

Director and Mrs. C. L. Brewer and daughter, Frances, will leave Friday for Colorado, where they will visit for a month.

Mrs. J. L. Meriam and daughter returned just a week ago from New York, where they have been since the close of school in June with Professor Meriam, who is lecturing during the Summer Session in Columbia University. Mrs. Meriam returned with her little daughter sooner than she had expected to on account of the infantile paralysis epidemic in New York. As soon as the Summer Session is closed at Columbia University, Professor Meriam will go to Frederick, Md., where he will lecture for three weeks and rest in the mountains. Mrs. Meriam and daughter had planned to join Professor Meriam at that place, but they will be prevented from doing so because those persons who have had their children in New York during the infantile paralysis scare are barred from other eastern cities.

Mrs. W. W. Charters left Saturday afternoon for Alberta, Canada, where she will spend the remainder of the summer with Dean Charters' parents on a farm. Dean Charters will join her at that place shortly after the Summer Session is closed.

Prof. and Mrs. George Lefevre are spending the summer in the East. They will return to Columbia about the beginning of schools here in September.

Prof. and Mrs. J. D. Elliff will leave Tuesday for Chicago. They will spend the remainder of the summer on the Great Lakes.

**Kansas Holds State Primary Today.**  
By United Press.

TOPEKA, Kans., Aug. 1.—Kansas political parties through the primaries today are nominating their state tickets for the November election. Full tickets, from governor down to county officers, are being named. Three parties will enter the field with a ticket—the Republicans (now in power) the Democrats and the Socialists. No Progressive ticket was offered the voters. Governor Arthur Capper has no opposition for the Republican nomination.

**W. C. T. U. Woman to Lecture.**

Miss Christine Tingling of the scientific temperance instruction department of the W. C. T. U. of Norfolk, Va., will lecture at 8 o'clock this evening on the Stephens College campus.

## IT'S EARLY FOR FOOTBALL, BUT JUST LISTEN TO THIS

If old and experienced players help, prospects are mighty good for a winning Tiger eleven this fall. Fourteen letter men of the Missouri football squad are coming back to school in September, according to Director C. L. Brewer.

Of this number, eight are line men and six backfield aspirants. In addition to this Brewer has seven players who lacked but several minutes of action to make their letters last year. On top of this, some great material will be available from the strong 1915 freshman team. Added to this will be other candidates, such as the members of the scrubs, players ineligible last year and a few dark horses. In all, Brewer expects about eighty-five players to report when the first call for practice is issued on September 11.

The letter men returning who play on the line are Lansing, 1916 captain, Hamilton, Muir, Van Dyne, Preston, MacAnaw, Groves and Giltner. Backfield stars returning are White, Reppy, Stankowski, Rider and Pittam. Rutledge, an M man from the 1914 season, will also be eligible. Substitutes from the 1915 team expected to make strong showings are Wyatt, McMillan, Haines,

Slusher, Bond, Peoples and Teas. The most promising of the freshman eleven are Selbie, Marshall, Thompson, Chandler, Simpson, Woodlief, Whisner and Viner.

The universities of Kansas and Texas, both on Missouri's schedule, have lost men who went to the border with their respective state militias. "Chuck" Wilson, 1913 Tiger captain and assistant coach last year, is the only Missouri man gone. And even at that Wilson couldn't play. He was graduated two years ago.

Helping Director Brewer and "Indian" Schulte this fall will be the new assistant, J. F. Miller, former star of the Warrensburg Normal Training School, and Charles "Ozark" Woody, all-around Tiger athlete for the last two years.

Most of the eighty-five candidates are in different parts of the United States, but there are five or six M men attending the Summer Session. All of these letter men are taking part in athletics here, playing golf, tennis, baseball and basketball. But football—well, they're just waiting for the gang to show up. Then watch them work!

### INVESTIGATE COST OF PAPER

Publishers to Seek Cause of Tremendous Increase in Prices.

BY ROBERT J. BENDER  
(United Press Staff Correspondent.)

WASHINGTON, Aug. 1.—Notice of a real war on print paper manufacturers was given by newspaper publishers of the United States today at an open hearing before the Federal Trade Commission. The hearing is the first of several to be held to determine, if possible, the underlying causes and a possible remedy for the tremendous increases in the cost of print paper to publishers.

Representatives of the American Newspaper Publishers' Association, the National Editorial Association, the Newspaper Publishers' Association, and the Newspaper Manufacturers' Association were present.

That the American Newspaper Publishers' Association is preparing a "war chest" to fight the manufacturers and is compiling data tending to show that combination and conspiracy exist among manufacturers to keep print paper prices up was announced by Vice-President Glass of the association, the first speaker at the hearing. Glass said general prices on contracts have increased 25 to 30 per cent and that publishers desiring extra paper have been compelled to pay as high as 50 to 100 per cent more.

**Gets Position As Stenographer.**  
Miss Nora Keegan of Columbia has recently been employed as stenographer of Dr. Walter McNab Miller.

### GIRAFFE CLUB PRESIDENT HERE

He's 6 Feet 6 Inches Tall and Has His Eye on Some Others.

The president of the Giraffe Club—one might say the Most High Giraffe—is in Columbia. He has been in Columbia for eight weeks, and yet this celebrity has gone practically unnoticed. The reason is, perhaps, that the city has so many possible Giraffes of its own, or that the species is so common in Missouri. But E. J. Knight, honored president of the Most Top-Lofty Order of Giraffes of the Springfield Normal School, has gone practically unnoticed, except for those who craned their necks to discover his face in order that they might recognize him on second meeting.

Mr. Knight is superintendent of the Buffalo, Mo., schools, a student in the Summer Session and is 6 feet 6 inches tall. He attended the Springfield Normal School four years and was each year president of the Giraffe Club, an organization which required only one qualification, that the neophyte be 6 feet 4 inches, or more, in height. The tallest man was, automatically, president; hence Mr. Knight's distinction.

Equal rights prevailed in the club, and during Mr. Knight's incumbency one woman qualified for membership.

Among the other men about the campus who might qualify for membership in such a club, according to the evidence of Mr. Knight's practiced eye, are President A. Ross III, Prof. J. D. Elliff, Prof. S. D. Gromer, Dean H. J. Davenport, J. B. Harmon, J. P. Nicholson and L. M. List.
